

BSS 100

PAVED-IN-PLACE SYNTHETIC TRACK SYSTEM

Economical, durable and easy to maintain the BSS 100 is the cost effective track surface solution for local schools and communities who are in search of an all-weather track system.

The BSS 100 features a porous, **paved-in-place system**, utilizing a machine installed base of single compound polyurethane binder and SBR rubber granules. The surface is finished with multiple spray applications of 100% solids, pigmented polyurethane and EPDM granules or the environmentally friendly **BEYPUR 160 water-based structural spray** that only Beynon Sports Surfaces offers.

- Found in entry-level educational facilities and communities
- Environmentally friendly BEYPUR 160 water-based structural spray available
- Supported by a comprehensive five-year warranty
- Easy to maintain and water permeable

The surface is structurally sprayed multiple times with a pigmented single compound polyurethane spray or the environmentally friendly BEYPUR 160 water-based structural spray.

SBR rubber granules are paved in place by high strength polyurethane to form the shock absorbing base layer.

GET THE TRACK SURFACE that goes the distance – without going over budget
